EEPC India is all set for the 3rd edition of Healthcare Supply Chain Show 2023 along with 6th edition of Nepal Medical show scheduled over 02-04 March 2023 in Kathmandu, Nepal.

The show is a pioneer platform for the manufacturers and exporters who are interested in exploring, showcasing, establishing and expanding new or existing market in Nepal.

Nepal is a very important trade partner for the Indian industry as most of the Medical, Hospital & Lab infrastructure supplies are exported from India. With more than 500 medical institutions, the demand for healthcare supply & infrastructure is growing.

Healthcare Supply Chain Show (HSCS) concurrent with Nepal Medical Show will give a huge boost to this growing sector of Indian Economy and provide a platform to the Medical devices and Healthcare Supplies Manufacturers to showcase their products and technology to the Indian and International Business Visitors from the Healthcare sector.

I wish all the best for the show.

Thank you.

**Arun Kumar Garodia**

**Chairman, EEPC India**

**Aakash Shah**

## MESSAGE

As close neighbours, India and Nepal share unique ties of friendship and cooperation characterized by an open border and deep-rooted people-to-people contacts of kinship and culture. There has been a long tradition of free movement of people across the border. Nepal shares a border of over 1850 km with five Indian states – Sikkim, West Bengal, Bihar, Uttar Pradesh and Uttarakhand.

The India-Nepal Treaty of Peace and Friendship of 1950 forms the bedrock of the special relations that exist between India and Nepal. Nepalese citizens avail facilities and opportunities on par with Indian citizens in accordance with the provisions of the Treaty. Nearly 8 million Nepalese citizens live and work in India.

Nepal is an important export destination for Indian engineering industry. As per the World Bank,, a decisive vaccine roll-out and the reopening of borders have supported the economy's recovery, with growth estimated to have accelerated to 5.8 percent in FY22. This was also driven by strong growth in domestic demand for both consumption and investment.

Nepal has a gradually expanding medical devices market which is highly based on imports. India is already a significant supplier of medical devices to Nepal with a share of around 22% in Nepal's import basket and is second only to China in terms of rank.

India's engineering export to Nepal witnessed a growth of 41.3% in the FY 2021-22 over the previous fiscal.

Nepal Medical Show along with Healthcare Supply Chain Show 2023 is a one stop solution which will meet all the requirements of the healthcare sector from Medical devices to infrastructural requirements.

I wish all the best for the show.

Thank you.

**Aakash Shah**

**Vice Chairman and Chairman of the Committee on Trade with SAARC, EEPC India**

**Rakesh Shah**

## MESSAGE

India is the most sought after manufacturing destination in the world and has the potential to export goods worth USD 1 Trillion by 2030.

Government is committed to ensure engineering goods exports double in the next five years and reach USD 200 billion by 2030,

Exports have seen tremendous growth over the last two years. India has reached \$418 billion of manufacturing exports in the fiscal year 2022 (FY22) with rapid growth over the last 2 years. Though India contributes 3.1% of GDP, our export contribution to the world has been a mere 1.6% only and looking at the current opportunities, it has immense scope, potential and triggers to grow. By 2028, it is expected that India will reach 1 trillion of manufacturing exports. Manufacturing's share of GDP in India is estimated to increase from 15.6% currently to 21% by 2031—and, in the process, double India's export market share. The government also launched an interest equalisation scheme to make credit available for cheaper exporters in India.

The government has set up a target of \$1 trillion in 2027-28 for merchandise exports and \$500 billion in exports in the next two years.

India, on its quest to become a global superpower, has made significant strides towards developing its engineering sector and Engineering Export Promotion Council (EEPC) is the apex body in charge of promotion of engineering goods, products, from India.

EEPC India has identified Medical and Surgical Instruments as a 'Sunrise Sector' in engineering. EEPC India has participated in Asia Pharma & Nepal Medical Show in 2022, Arab Health in 2023 and now in Nepal Medical Show 2023, and plans to participate in Ethiopia Medical Device Fair 2023, Arab Pharma Manufacturers' Expo in 2023 and Nepal Medical Show & Asia Pharma 2024 which would all enhance in furthering the Indian outbound shipment in this industry

I look forward to more lead generation and more of business coming from this sector of engineering as we partake in different world wide fairs

I wish a happy and fruitful stay in Nepal during 2-4 March.

Thank you

**Rakesh Shah**  
**Past Chairman &**  
**Chairman of the Committee on Trade Promotions, EEPC India**

**Suranjan Gupta**

## MESSAGE

The current market size of the medical devices industry in India is estimated at \$11 bn. India is the fastest growing medical devices market amongst the emerging markets. The medical devices industry in India consists of large multinationals as well as small and medium enterprises (SMEs) growing at an unprecedented scale

The global medical devices market is projected to grow from to \$718.92 billion by 2029 at a CAGR of 5.5% in forecast period, 2022-2029. Rising geriatric population and increasing emphasis on early diagnosis and treatment and surgical procedures will be some of the key growth drivers for medical devices in the world. This trend will be further augmented by rising investment in innovative devices and technologically advanced equipment.

The Indian market is among the top twenty in the world by market size, and fourth in Asia after Japan, China and South Korea. India's medical devices market is projected to reach US\$ 50 billion by 2025. There are over 6,000 types of medical devices in India. India's expected export of medical devices will reach ~\$10 bn by 2025.

\$ 2.7 bn FDI inflows in Medical and Surgical Appliances has been recorded from April 2000 - June 2022. 100% FDI is allowed under the automatic route for both brown field and greenfield setups. Strong FDI inflows reflect the confidence of global players in the Indian market

This is India time for all sectors and I am sure it would be a satisfying experience by the Indian squad.

Thank you.

**Suranjan Gupta**  
**Executive Director, EEPC India**

Dear Mr. Anurodh Parashar,

NEPAL MEDICAL SHOW - 2023 is a one of its kind Medical & Healthcare Event offering an ideal International Platform to Medical & Healthcare Industry. It is one its way to become the most successful and exceptional Exhibition to showcase Medical Technologies in Nepal.

India is one of the fastest growing Country in Medial & Healthcare Sector. NEPAL MEDICAL SHOW - 2023 providing an opportunity for interacting with People of different Countries for trade and business at a single place to set up profitable overseas business relationships and keep abreast with accessible Technologies.

I heartily congratulate all participants and want to offer my gratitude to Mr. Anurodh Parashar, Project Head, Healthcare Exhibition, S D Promo Media Pvt Ltd for his genuine efforts for the establishment and growth of India Medical & Healthcare Industry.

We hope that NEPAL MEDICAL SHOW - 2023 can become the preferred Healthcare Exhibition for Indian Medical Devices Industry in the Region and rise to the levels of Arab Health, Dubai & Medica Germany.

With Best Wishes to Participants for a Successful Show.

**Rajiv Nath**

**Forum Coordinator**

**Association of Indian Medical Device Industry (AiMeD)**

**Bhakta Bahadur Hamal**  
President

## PRESIDENT'S MESSAGE

It is my immense pleasure to express my gratitude to each and every one of you for making the **Nepal Medical & Lab Show 2023** a grand success. As the co-organizer, it was our vision to bring together healthcare experts from diverse fields to collaborate, learn, and showcase their innovations, products, and services.

It is truly inspiring to see how the **Nepal Medical & Lab Show** has become the largest event of its kind, offering a large platform for exhibitors to interact with key decision-makers and share comprehensive information about the latest developments in the healthcare industry.

I believe that the success of the show would not have been possible without your active participation and valuable insights. I thanks to my executive member, advisor and all team of Chemsan who have done tremendous jobs to make it success.

I am proud to be part of a community that is committed to advancing the medical, surgical, clinical diagnostic, hospital infrastructure, medical tourism, and medical science and technology industries. The Nepal Medical Show has indeed provided a unique platform for all of us to come together and contribute towards building a healthier society.

Once again, thank you for your valuable contribution and unwavering support towards the success of the Nepal Medical Show 2023.

Sincerely,

**Bhakta Bahadur Hamal**

President of CHEMSAN and Co-organizer of Nepal Medical & Lab Show 2023

**Anurodh Parashar**

**MESSAGE**

We are delighted to welcome all Exhibitors, Trade Visitors and Partners in 6th Nepal Medical & Lab Expo 2023.

This year the show is the largest in terms of number of exhibiting companies with larger area of exhibition space ever. This year, we have introduced new hall for accommodating more exhibitors. We are also excited to inform you that almost all major worldwide brands in medical sector are participating through their local channel partner or directly. Also this year 300+ companies from seven different countries are participating in 6000 Sq. Mt. of gross area.

Our purely purpose is to creating such a platform in Nepal where healthcare & laboratory fraternity from the country have been visited the show and to get the latest information and knowledge about the product and innovation in the sector. We wish our purpose has been fulfilling with the response from the trade industry.

This year our team has personally invited Doctors, Hospital Owners, Lab Owners & Directors and other Trade Professionals in far-flung areas in Nepal and also other prominent cities like Nepalgunj, Birgung, Bhutwal, Chitwan, Pokhara etc.

We are grateful and thankful to EEPC, CHEMSAN, Sponsors, and Partners, Exhibitors & Trade Visitors for their continuous support and love for the event.

### CHEMICAL & MEDICAL SUPPLIERS ASSOCIATION OF NEPAL (CHEMSAN)

E-159

Blue Bird Mall, Tripureshwor, Kathmandu, Nepal

Tel: 9851174618

Chemical & Medical Suppliers Association of Nepal [CHEMSAN] was registered in 2061 BS with an objective of uniting the entire Chemical & Medical Suppliers of Nepal. CHEMSAN embraces chemical, medical, scientific goods suppliers and importers of such goods entrepreneurs. The association has been performing various meeting and activities to promote and protect its chemical and medical suppliers of Nepal. Moreover, to make the import easier and cost effective the association is dialoguing with government authority for appropriate acts and laws. CHEMSAN is here to create fair environment for businesses in the field of Health Science may it be Medical, Surgical, Radiology and Laboratory. Ethical promotion and business management must prevail and competition on advancement should be promoted. 1. CHEMSAN strongly believes in following the law of land. 2. CHEMSAN will not be able to protect its members who are doing business transaction with Over-invoicing or Under-invoicing or no Invoicing. This is against the law. 3. Refurbished, pre-owned, re-certified medical equipment are not allowed in Nepal as per 2063 act, so we request all the manufacturers and their authorized distributors in Nepal to observe it seriously. CHEMSAN requests all the international manufacturers to appoint their local representative to carry out their business transaction in Nepal through local distributor preferably from CHEMSAN members. 5. CHEMSAN requests all international companies to get NO OBJECTION Letter from existing distributor before they change their distribution channel. CHEMSAN will fight against this unprofessional behavior of International companies. 6. CHEMSAN is lobbying for the company registration rule implementation in Nepal with Ministry of Health, all concerned are encouraged to forward your concerns for clarification to CHEMSAN. 7. Having porous border with India has created challenges of infiltration, of products from India in spite of having authorized distributor available local, for the same product. CHEMSAN will fight against these practices. 8. As per Indo- Nepal treaty, either country (India and Nepal) cannot re-export products if its country of origin is third country. It has been observed that many products manufactured in third countries have been re-exported into Nepal. CHEMSAN is going to have separate desk to start reporting "Against the Law" cases to government authority very soon to provide a fair play scenario to all the members. 9. There are major concerns of CHEMSAN with government of Nepal for which CHEMSAN is consistently putting its effort to make adjustments, we need your solidarity. 10. CHEMSAN Will make its utmost try to protect its members while they are on right path and also to punish for their illegal and anti-social deeds as well. Eventually we need to make sure our country becomes capable and reliable to resolve our Health and Sciences issues, let's contribute positively from our end.

EEPC India has been the Face of Indian Engineering exports over a span of 65 years when India grew from a meagre \$10 million engineering export nation in 1955 to USD 72.7 Billion (2020-2021) and is regarded as the MODEL EPC in India by the Union Ministry of Commerce and Industry.

EEPC India is the premier trade and investment promotion organisation in India. It is sponsored by the Ministry of Commerce & Industry, Government of India and caters to the Indian engineering sector. It has many firsts to its credit. The First Indian EPC to have a website, to be ISO certified, to have a Mobile App, to have an in house Technology Centre and also to e catalogue the product profiles. As an advisory body it actively contributes in the policies of Government of India and acts a prime conduit between the Indian Engineering fraternity and the Government. Set up in 1955,

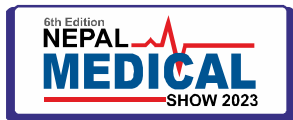

EEPC India now has a membership base of over 13,000 predominantly drawing 60% from MSME segment. EEPC India has been participating and organising promotional activities including buyer-seller meets (BSM) –managing India pavilion in selected overseas exhibitions to demonstrate the capabilities of Indian engineering industry. INDEE (Indian Engineering Exhibition) and its domestic counterpart – IESS (International Engineering Sourcing Show) are two flagship events of EEPC India.
